

Where does ACI take the Garbage collected from the gray carts and bins?

What happens to your Garbage?

Truck picks up garbage.

Trucks bring garbage to the landfill where it is dumped.

The garbage is compacted to make room for more trash to be dumped until the landfill reaches its capacity.

NO PAINT, BATTERIES, FLUORESCENT BULBS, POISON, OR OTHER HAZARDOUS WASTE
 Hazardous waste is not accepted in any Alameda County Industries collection carts or bins. For information on disposal locations, please call the Alameda County Household Hazardous Waste team at 1-800-606-6606.

DID YOU KNOW?

- Landfills contribute 17.5% of all man-made methane gas.
- On average, Americans landfill 4.38 lbs of waste per day, and Californians generate 8 lbs of waste per day.
- These materials never enter the Economic Market again. Instead, we have to mine an increasing amount of finite resources, causing more pollution and higher energy use.
